

STANDING TO ITS GUNS.

THE AMERICAN LEAGUE HOLDS A BIG MEETING.

And Remains Its Former Action in Regard to the Advisory Council.

Other Matters.

The meeting of the American League last night was packed and enthusiastic. A large number of applications for membership, some of them from well-known citizens, were received and accepted, and the finances of the organization were reported to be in a flourishing condition.

President Murray presided, and several speeches were made, many of them red-hot ones, on the subject of a Planter's Republic. It was the unanimous and resonant opinion that the Club should oppose such a scheme in a body and insist upon a continuance, through rain and shine, of the policy of annexation. It was also determined that the policy of securing representation in the Council should be pressed with vigor and determination.

The committee instructed to confer with the directors of the STAR about the candidacy of Mr. Smith to the Advisory Council reported as follows:

HONOLULU, Jan. 12, 1893.

TO THE AMERICAN LEAGUE:

Gentlemen—Your committee appointed in conjunction with a like committee from the Annexation Club, by virtue of President Murray, to confer with the directors of the HAWAIIAN STAR regarding the appointment of Mr. Walter G. Smith to the Advisory Council, in case a vacancy occurs therein, begs leave to report as follows:

We have had a meeting of the board of directors of the STAR, and find them unalterable in their objections to Mr. Smith occupying a seat in the Council, believing that same would be detrimental to both the political and financial interests of their paper.

In view of these facts we would respectfully suggest that the matter be held in abeyance for the present, or until such a time as a vacancy shall occur, and that in the meantime the name of Walter G. Smith be kept before the Advisory Council as the nominee of this League.

Respectfully submitted,

T. B. MURRAY,
C. S. BRADFORD.

We concur in the above.

C. B. ABLES,
C. B. WOOD.

Committee representing Annexation Club.

The report was unanimously adopted with prolonged applause, and the following resolution was carried without a dissenting voice:

Resolved, That this League reaffirms its unanimous endorsement of the candidacy of Walter G. Smith for the prospective vacancy in the Advisory Council.

Resolved, That it is the duty of every member of this League to support unreservedly the candidacy of Mr. Smith and to use every honorable means to secure his election.

Another resolution which secured unanimous passage was the following:

WHEREAS, The Provisional Government has seen fit to allow two efficient field places which are needed in the military department at the Executive building to be shipped away to the Midwinter Fair;

WHEREAS, We deem it extremely necessary that all the artillery at present in this country be retained under the present state of affairs. Therefore,

Resolved, That we respectfully protest against any field pieces, guns or ammunition being allowed to leave this country.

Resolved further, That a copy of this resolution, signed by this club's secretary, be furnished the President of the Provisional Government.

The meeting was exceedingly enthusiastic and determined throughout.

THE BIG CELEBRATION.

Features of the Day to be Fixed at a Meeting To-night.

A meeting will be held at the hall of the Annexation Club to-night to complete arrangements for the celebration next Wednesday. The military demonstration, with company and battalion drills, will take place on the forenoon of the 17th. A goodly number of Annexationists are advancing objections to a torchlight procession, deciding to dance a bonfire on Punchbowl has been suggested in connection with the fireworks display. Many are in favor of a mass meeting with short speeches by the best local orators. The occasion will be a general holiday. Newspapers will suspend and business houses close, while every rifle will be at a premium and resorts will be thronged with merry crowds. Flags will float and patriotism and loyalty will be evidenced in various ways.

The celebration matter was considered at length at this morning's meeting of the Executive Council. The Government will take a prominent part in the ceremonies. After the military display, which will end with a review by the Commander-in-Chief, there will be a reception at the Executive building. President Dole and the Ministers will receive in the Council hall between 11 and 12. All citizens will be welcome. At noon the national salute of twenty-one guns will be fired.

HAMAOKA NOTES.

HAMAOKA, Jan. 10.—Pauilo is now completed. By the aid of a small pump 17000 gallons per day are obtained. When, however, the large pump is put in, the well, it is thought, will yield more than twice that quantity of water. The water is very clear and is, in fact, it is difficult to distinguish it from rain water. The well is 228 feet deep which is a little below sea level. Water was obtained at a less depth, but boring was continued in order to make a reservoir.

The snow on the mountain is grand. It reminds one of Switzerland. At night the gentle breeze from the mountain makes the atmosphere beautifully cold.

During the past few days the high winds have continued and the sea has consequently been very rough.

Probate Matters.

W. A. Kinney has entered suit against Doraki K. Pii for possession of part of the estate of Kolei K. Pii, deceased.

Mr. Kinney having been named as administrator of the estate of Kolei K. Pii, the property in question is worth \$200.

Kaalohe Ikuo has applied to be appointed administrator of the estate of Olo Ikuo. The estate is worth \$400.

Anna K. Kapali's will is so much like a deed or ordinary conveyance that it will not be probated until further considered by the Court.

Two Defendants Now.

Ferreira, the Portuguese held for violently assaulting a countryman, will have a hearing on the 16th. Miranda, another Portuguese will be co-defendant. The latter attempted to leave the country on the barkentine Wilder, leaving a wife and child. The victim of the assault is still in a very serious condition. His recovery will require months, if he gets well at all.

NEWS IN A NUTSHELL.

Officers of the Annexation Club—Attention! Turn out to-night.

A police detail now reloads rifle cartridges shells for target practice.

The test of the electric lights last night was entirely satisfactory.

Jurors for the February term of Circuit Court were drawn to-day.

Work is to begin in a few days on the outbuildings for the Sailors' Home.

Mail sent by the Monowai was 4,120 letters and 1,000 packages of papers.

Geo. P. Castle will lead the Y. M. C. A. meeting at 6:30 to-morrow evening.

Copies of the Willis-Dole pamphlet are on sale at J. A. Martin's bookstore.

It is rumored that Minister Willis has complained of the press criticisms of him.

Only a few cases of small moment were before the garrison court martial last night.

A concert is being given at Emma Berger's band.

There will be an important meeting this evening of the officers of the Annexation Club.

A regular quarterly business meeting of the C. Brewer & Co., (Limited), was held this morning.

Kolopeka, a native in under arrest for assaulting his wife. She had left him and taken up with a blind man.

Makanihina, a native publication, is issuing wrapping paper editions on account of the scarcity of white paper.

Bids for work on the new residence of C. A. Peacock are being opened this afternoon at the office of C. B. Ripley.

C. H. Rose having reached his majority, his estate is turned over to him by his guardian. The inheritance is \$750.80.

Four Chinese tried to beat a native on Nuanuan, near Merchant, at noon and all were jailed. The trouble arose over a small trade.

The DAILY and WEEKLY STAR is on sale at "The Bazaar," J. A. Martin's bookstore in Hilo, where subscriptions may be ordered. dw-It

Mrs. K. K. Pii, by her attorney, files a brief general denial to the suit of W. A. Kinney, as executor, for property of the late Mr. Pii.

At a meeting of the Board of Immigration to be held next week action will be taken on the proposed importation of 5000 Chinese coolies.

Chin Yoo, a Chinese youth who stabbed a native boy last evening has been remanded to await the result of the injuries inflicted.

Arrangements have been made to hold the funeral of the late Franklin S. Pratt from St. Andrew's cathedral at 3 o'clock to-morrow afternoon.

There is talk of an impromptu football game for next Wednesday afternoon. The teams are to be made up of Punahou, Honolulu and Pacific players.

To-morrow will be the last Sabbath of Dr. Beckwith as pastor of the Central Union church. There will doubtless be a large attendance at all services.

Mr. Muller, who gained some notoriety by a collision with a section of the Police department, left by the Monowai with his wife. Friends furnished the funds.

The *Scintilla*, the leading and most widely circulated Portuguese journal, has ceased publication for the third year of its publication. Our congratulations to the editors!

The Executive Council meeting to-day was held at the residence of Mr. Dole. The health of the President is much improved and he is spending the afternoon in the country.

The Police station official facetiously referred to as having captured the affections of Vana King thinks that giving currency to such a statement is carrying a joke a bit too far.

A number of the bags of sand used in building fortifications about the Executive building were shipped to the Midwinter Fair. A certificate of their genuineness accompanied the bags.

A Japanese released from Oahu prison yesterday was arrested while trying to stow away on the Monowai. The man will be returned to the plantation he formerly served.

Health Officer Reynolds is on duty again after a respite with the grippe. He had this morning a report of one new case of scarlet fever at Hilo. All the other patients are convalescing.

Two members of the Provisional Government band left for the coast by the Monowai. Musicians are now in active demand in San Francisco. Mr. Mariano Gomez, the euphonium player, is quite a loss to the band.

Kalaokaua's Estate.

Dr. Tromsden, administrator of the estate of the late King Kalaokaua, has filed a final report with request for settlement and discharge. During the past twelve months the executor has received \$10,491.36 and paid out \$9,992.43. The credit sources of income were the rent roll, Transway interest, settlement with the Reciprocity Sugar Company and sale of the electric light plant once maintained at the former palace. Among the expenditures were a balance of \$277 for medical attendance during the fatal illness, \$321.63 to take up notes held by Kapiolani, \$50 to St. Andrew's Priory for Kapiolani and \$300 to Bishop Willis.

Smoking in Their Temple.

A few days ago the police learned that the Chinese Joss house near Kamaokapi church was being used as an opium saloon. A descent was made on the place this forenoon. Seven Chinese, either smoking opium or under the influence of the narcotic, were found. In a couple of hours all of these were hauled out by friends.

PERSONAL.

President Dole, Judge Whiting and Curtis Iaukea are off to-day on a shooting expedition.

A RAILWAY'S RANCHES.

VARIED LARGE INTERESTS OF THE OAHU COMPANY.

Cattle, Horses and Sugar Stock—Steamer—Proposed Extension—A Loan Available.

The Oahu Railway and Land Company is probably the only steam carrier corporation in the world owning and operating a ranch department. It is an extensive branch of the business, being listed in the assets at \$65,883.36. This is aside from \$500 of Ewa plantation stock. A steamer, the Frolic, valued at \$2,905, is also owned by the company. Several railways in the United States, notably the Union Pacific in the Puget Sound section, maintain complete ranch departments. The ranch inventory of the Oahu Company includes 1000 head of cattle valued at \$8,000, 30 head of horses worth \$1,350, 1 Norman stallion worth \$750 and 66 head of thoroughbred bulls and cows worth \$8,500. Besides these there are the 9,345 cattle and 289 horses on the "Campbell ranch." For the three years ending July 1, 1890, the gross earnings of the ranches reached the sum of \$180,489.18. The expenses were \$159,898.97, leaving a gain of \$20,590.21. From this is deducted \$17,948.41 of interest, leaving a net profit of \$2,641.80.

The land department is an important factor in this enterprise. It is figured out as having the value of \$319,270.05. It includes terminal territory, sea wall, real estate in Honolulu and Pearl City, acreage at various points, Bonanza and improvements and the Pearl City water-works plant. Land sales during the past three years returned \$115,975.50 and water rents, \$142,400. The net gain of the land department over and above all expenses was \$70,938.58.

The proposed extension of the railway is the chief project. The plan of the extension is to run from Honolulu to the Kahuku mill, fifty-two and one-half miles from Ewa, also to build a branch from Waiwala to Halstead's mill, six miles and quarter. Contractor Fook has made a bid for the work on estimates prepared by Chief Engineer C. H. Kluge. Total cost of the proposed extension is placed at \$400,000. It is planned to issue 6 per cent bonds in this sum.

Receipts of the railroad department of the corporation as it now exists amounted for the three years ending July 1, 1890, to \$250,376.15. The offset includes heavy repairs to track on the Pearl Harbor road, \$148,337.05; cost of the Kahuku mill, fifty-two and one-half miles from Ewa, also to build a branch from Waiwala to Halstead's mill, six miles and quarter. Contractor Fook has made a bid for the work on estimates prepared by Chief Engineer C. H. Kluge. Total cost of the proposed extension is placed at \$400,000. It is planned to issue 6 per cent bonds in this sum.

Receipts of the railroad department of the corporation as it now exists amounted for the three years ending July 1, 1890, to \$250,376.15. The offset includes heavy repairs to track on the Pearl Harbor road, \$148,337.05; cost of the Kahuku mill, fifty-two and one-half miles from Ewa, also to build a branch from Waiwala to Halstead's mill, six miles and quarter. Contractor Fook has made a bid for the work on estimates prepared by Chief Engineer C. H. Kluge. Total cost of the proposed extension is placed at \$400,000. It is planned to issue 6 per cent bonds in this sum.
